DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Hwa on September 15, 2006.

The application has been amended as follows:

In claim 1, line 11, delete "a diffused light" and insert --light which is diffused by the optical path changing structure and is subsequently sent--.

Response to Arguments

Applicant's arguments, see pages 4 and 5, filed July 6, 2006, with respect to claims 1, 3, 5, and 7 have been fully considered and are persuasive. The rejection of claims 1, 3, 5, and 7 has been withdrawn.

Allowable Subject Matter

Claims 1, 3, 5, and 7 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art, as best exemplified by Ouchi, US 6,829,398, teaches an optical connector device (Figure 2B) comprising an optical waveguide layer (7), a laser array having a first surface-emitting (column 2, lines 19-24) laser (5) and a second emitting laser (6), an optical path changing structure (3) for changing an optical path of the light from the first laser or the second laser; and light-receiving elements (6) for receiving the light from the first laser or the second laser through the optical waveguide layer, wherein the first surface emitting laser emits a beam light to one receiving element (column 9, line 21 – column 11, line 64). However, Ouchi, either alone or in combination with the prior art, fails to disclose or render obvious that the second surface emitting laser emits light which is diffused by the optical path changing structure and is subsequently sent to a plurality of receiving elements.

Claims 3, 5, and 7 are allowed based on their dependence from allowed base claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerry Martin Blevins whose telephone number is 571-272-8581. The examiner can normally be reached on Monday through Friday.
